

How to Reactivate Your Student Account

Because SciTech is a state-funded program, we're required to reauthorize all students at the start of each new program year. The purpose of account reactivation is to ensure that all students still meet the program eligibility requirements. The program year begins September 1 of the current calendar year and ends August 31 of the following calendar year.

For example: Our 2022 program year begins September 1, 2021 and ends August 31, 2022. If you had a SciTech account in the 2021 program year, your profile will be closed on 8/31/2021 and you will need to reactivate your account in order to enroll into the 2022 program year.

You will be eligible to participate in SciTech again if you:

- a) Are a current undergraduate OR a graduate student in an accredited STEM degree;
- b) Have a cumulative GPA of 2.5 or higher;
- c) Have at least 60 credits completed (Bachelor's degree in progress) OR
- d) Have at least 24 credits completed (Associate's degree in progress); OR
- e) Are currently enrolled in a graduate degree program
- f) Live in and attend college in Minnesota or are a resident of Minnesota attending school out of state;
- g) Are legally eligible to work off campus in the US (International students need CPT/OPT)
- h) If you are a senior in college, you must reactivate your account before the end of the month in which you graduate.

Required Document: A current unofficial transcript that includes:

- a. Your name and major
- b. All courses for which you are registered or have in progress
- c. A list of your cumulative completed credits
- d. Your cumulative GPA
- e. All documents should be sent to SciTechMN@mntech.org

If you have any questions, please contact SciTech program staff at SciTechMN@mntech.org or call 952-230-4536.
